

**PLASMON 2nd annual meeting
Sodankyla Geophysical Observatory
11-15 February 2013**

Monday Morning and Early Afternoon

Welcome & Introduction

WP1: (János Lichtenberger)

1. Outline of WP1 activities in year 2 and summary of status
2. Report on WP1 deliverables and milestones for year 2
3. Report on planned WP1 deliverables and milestones for year 3
4. Science report, year 2
5. WP1 workplan for year 3

Monday Afternoon

WP2: (Massimo Vellante)

1. Outline of WP2 activities in year 2 and summary of status
2. Report on WP2 deliverables and milestones for year 2
3. Report on planned WP2 deliverables and milestones for year 3
4. Science report, year 2
5. WP2 workplan for year 3

Monday evening (6-8 pm) we have a small get-together party at Sodankyla Municipality hall. Some refreshment will be served...

Tuesday Morning

WP2: (Massimo Vellante) Continued

1. Outline of WP2 activities in year 2 and summary of status
2. Report on WP2 deliverables and milestones for year 2
3. Report on planned WP2 deliverables and milestones for year 3
4. Science report, year 2
5. WP2 workplan for year 3

Tuesday Afternoon

WP3: (Anders Jørgensen)

1. Outline of WP3 activities in year 2 and summary of status
2. Report on WP3 deliverables and milestones for year 2
3. Report on planned WP3 deliverables and milestones for year 3
4. Science report, year 2
5. WP3 workplan for year 3

Wednesday Morning

WP3 data flow discussion: (Anders Jørgensen)

1. Discuss data flow into the data assimilation and the format of the output of WP 3 to WP 4. These are coming up in the deliverables and milestones list for WP. This requires that everyone has some idea of data coverage on both the input and output side and we pick several events where there is the widest possible coverage.
2. Having plots of data coverage and plots of at least K_p and Dst readily available would probably be very helpful.

Thursday Morning

WP4: (Mark Clilverd / Craig Rodger)

1. Outline of WP4 activities in year 2 and summary of status

2. Report on WP4 deliverables and milestones for year 2
3. Report on planned WP4 deliverables and milestones for year 3
4. Science report, year 2
5. WP4 workplan for year 3

Thursday Afternoon

WP5: (Craig Rodger)

1. Outline of WP5 activities in year 2 and summary of status
2. Review of outputs from year 2
3. Discuss mechanism for submitting outputs to Gabor
4. Additional presentations/publications or media releases associated with PLASMON
5. Discuss state of web site
6. Publication plan for the next 12 months
7. Discussion of dedicated PLASMON workshop

Thursday Afternoon as well

WP6: (Janos Lichtenberger)

1. Reporting in PLASMON (Gábor Ronaszéki/János Lichtenberger)
2. Other management issues

Friday

WP1-5: (WPladers)

1. Workplan for period 3
